

To Whom It May Concern:

Until Indiana's Telephone Privacy law was enacted by our state legislature, The amount of un-solicited telephone calls we received numbered approximately 3 a day, which included national Holidays (i.e. Christmas, Easter and Thanksgiving). Once our State Law was enacted, the calls stopped immediately.

The time spent enjoying life with my family has greatly improved. The opportunity to enjoy a meal without being interrupted was unbelievable. Now the Members of the Consumer Bankers Association have filed a proceeding with your agency to challenge the allow them to circumvent the Indiana Telephone Privacy Law. When considering there proceeding, please keep in my that Indiana Citizens wanted this State law enacted to protect there enjoyment of life. Please allow the State of Indiana's Citizens to govern themselves.

Thank you

Jason R. Henderson
